**THE STANDARD
IN TIG WELDING**

January 23, 2023

Dear Valued Partner,

CK Worldwide will be implementing a price change effective **April 1, 2023**

We generally only change pricing once a year which has made this past year a real challenge given all the inflationary pressures. As much as we try to control costs through efficiencies in domestic production and negotiated pricing with our suppliers, the escalation in raw material costs, labor and freight are driving these price changes.

We plan to hold pricing on the following products:

- Tungsten Electrodes
- MT200 AC/DC TIG Machine
- Cold Wire Feed Systems
- TS10 Tungsten Grinders

Please note that ceramic lava nozzles and hard plastic insulated torch bodies will no longer be available after current inventory is depleted. We are also discontinuing our PTO packaged TIG outfits.

Our mission will be to continue providing the highest quality, widest range, competitively priced, most innovative TIG products available in the market today.

We will not have a mailing of price books, however the electronic price files will be made available prior to the April 1, 2023 increase. We will do our best to provide the price files as soon as possible. You may email ck@ckworldwide.com to request the file, or simply call 1-800-426-0877 and we will place you on the list to receive the price files once available.

We appreciate your business.

Best regards,

Jeff Sharpe

President
